

This guide will teach you how to embed media from Kaltura into your Ultra course.

1. In the Content tab of your Blackboard Ultra course, click on the  **Plus icon** to add a new item (Figure 1).

Note: If you do not have any content in your course already, there may be a button that says **Add Content** instead.

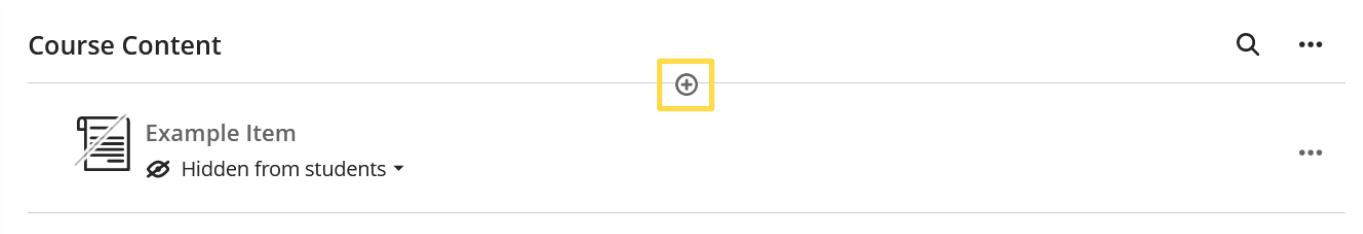

FIGURE 1

2. On the menu that appears, click **Content Market** (Figure 2).

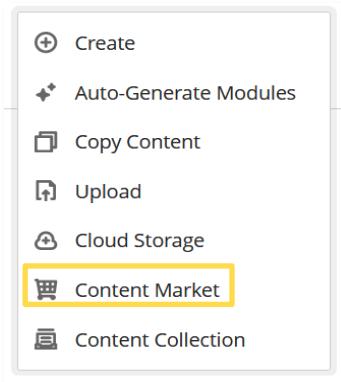

FIGURE 2

3. The Content Market page opens. Under Institution Tools, scroll down until you find the **Kaltura Embed Media (LTI)** tool (Figure 3). Click on this tool to open it.

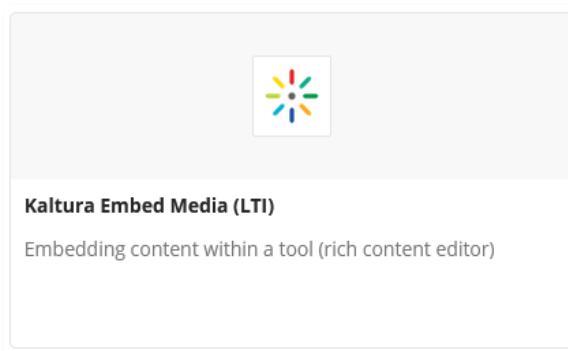

FIGURE 3

4. Click on the **</> Embed** button next to the video to add to your course (Figure 4).

FIGURE 4

5. The selected media will be added to your course (Figure 5). It will be visible to students by default.
