## Bb Annotate Features:

- A. **Sidebar:** View Thumbnail, Outline, Annotation, or Bookmark views of the submission.
- B. **Pages:** Use the arrows to jump to different pages in the submission.
- C. **Pan:** Move the submission on the page.
- D. **Zoom and Fit:** Zoom in and out of the submission or adjust the view to fit the page, fit the width, or select the best fit.
- E. **Annotation tools:** Select each tool to view the tool properties.
  - **Drawing, Brush, and Eraser:** Draw freehand on the submission with various colors, thickness, and opacity. Select the eraser to remove annotations. You can erase parts of a freehand drawing with the eraser or select the Delete icon to delete the whole drawing.
  - **Image or Stamp:** Choose a preloaded stamp or create your own customized stamp or image to add to the submission.
  - **Text:** Add text directly on the submission. You can move, edit, and change the text and select the font, size, alignment, and color of the text.
  - **Shapes:** Choose Line, Arrow, Rectangle, Ellipse, Polygon, and Polyline. Each shape has its own settings to change the color, width, opacity, and more.

- G. **Comment:** Provide feedback in comments. Your comments appear in a panel next to the submission.
- H. **Print or Download:** Print or download the submission with the annotations.
- I. **Search:** Search the submission for specific text.
- J. **Content Library:** Create a bank of reusable comments. You can add, edit, delete, and search comments in the library. You can also add a comment directly to the submission page from the menu.
- K. **Highlighter:** (Not a tool on the tool bar) Select specific portions of the submission to highlight. As you highlight text on the submission, an additional menu opens. You can highlight, strikethrough, underline, squiggle, or comment on the highlighted section.

## Sample Marked Up Document

The screenshot displays the BB Annotate interface. On the left, a document titled "Impact of Habitat" is shown with several annotations. A red box highlights a paragraph under the heading "Opinion": "Habitat loss is probably the greatest threat to the variety of life on this planet today. It is identified as a main threat to 85% of all species described in the IUCN's Red List (those species officially classified as 'Threatened' and 'Endangered'). Increasing food production is a major agent for the conversion of natural habitat into agricultural land." A red circle highlights a sentence under the heading "High land conversion rates": "The net loss in global forest area during the 1990s was about 94 million ha (equivalent to 2.4% of total forests). It is estimated that in the 1990s, almost 70% of deforested areas were converted to agricultural land." A red box highlights a sentence under the heading "Source": "Around half of the world's original forests have disappeared, and they are still being removed at a rate 10x higher than any possible level of regrowth. As tropical forests contain at least half the Earth's species, the clearance of some 17 million hectares each year is a dramatic loss." The right-hand panel shows "Assignment Details" with a "MARK" section indicating "LAST MARKED ATTEMPT" with a score of "/50". Below that, an "ATTEMPT" section shows the date "05/03/20 09:03" and a score of "/50". A "Submission" section shows a file named "ExampleAssignment1.docx" with a download icon.
